ASPIRING FULL-STACK DEVELOPER

I am a third-year Computer Science Engineering student with a passion for full-stack development. I enjoy crafting complete web solutions, from designing responsive and user-friendly interfaces with HTML, CSS, JavaScript, and React.js to building robust back-end systems using PHP, Laravel, and MySQL.

I've had the opportunity to work at a startup called OGRELIX and at a multinational corporation KANINI Software Solutions in Sholinganallur. During these experiences, I worked on real-world projects, which significantly enhanced my technical skills and deepened my appreciation for teamwork and communication.

I'm always eager to explore new technologies, take on exciting challenges, and continue growing as a developer. Whether it's coding a new feature or diving into the latest tech, I'm excited to learn and contribute.

SKILLS & EXPERTISE

JavaScript	Node.js	PHP
React.js	Express.js	Laravel
Tailwind.css	React-Native	MySql

PROFESSIONAL EXPERIENCE

Ogrelix   **1st June - 30th June 2024**
Intern

- Contributed to a real-time project using React.js, Laravel, and MySQL.
- Enhanced web development skills through hands-on experience with full-stack technologies.
- Gained invaluable real-world experience by collaborating with a dynamic team.
- Extended gratitude to Ogrelix and the team for their guidance and support throughout the internship.

KANINI Software Solutions India Private Limited – Chennai-119   **1st July- 31st July 2024**
Project Intern

- Completed a one-month internship with the Product Engineering Department, focusing on frontend development.
- Worked extensively with HTML, CSS, JavaScript, and React.js to create dynamic and responsive web applications.
- Contributed to several impactful projects, enhancing skills in modern web development.
- Expressed gratitude to the team for their constant support and guidance throughout the internship.
